Energy-saving LED light can install quickly without any hardware. Relax and expand your swimming experience!

Adieu, Adieu, Parting Is Such Sweet Sorrow...

As Summer gets ready to begin, we sadly announce the end of an era. Andrew Bell, our Service Manager of many years, is moving along on his journey in life. It's been a great run, but greener pastures call and so he will be moving on.

Question Line

Q : You frequently talk about the benefits of hydrotherapy. What does hydrotherapy really mean?

A : Great question.

Hydrotherapy is simply using water to treat various ailments. This can come in various forms: from soaking in warm or hot water to performing physical exercises in the water. This type of

therapy has been around for hundreds of years, dating back to Greeks and Romans.

The benefits of warm water therapy range from treating arthritis, joint problems, muscle aches, headaches, stomach problems, sleep disorders and stress.

If you have a swim spa, you can add aquatic exercises to add on to the benefits you reap from this wonderful form of treatment.

HAPPY SWIMMING!

Summer Soak-A-Thon Is Back!!

I know what you're thinking: JR, it's blazing hot outside; why would I want a hot tub?!? And it's a valid question. Let's look at some of the reasons why you want to order a hot tub now.

1. Free delivery: Assuming you're not putting the hot tub on a second- or third-floor balcony, we will deliver the hot tub to your residence free-of-charge. This will normally run you between \$300-400 depending on your location.

2. Free hook-up: As long as you have the wiring already installed by a qualified electrician, we will hook the hot tub up to your wiring so it is ready to go once you fill it up. Please make sure you use a qualified electrician. There are quite a few people on island who call themselves electricians, but are sorely lacking the skills and expertise to perform simple tasks. Check references to get an idea if they know what they're doing. We

can recommend someone if needed.

3. Get the exact tub you want: If you want something different than one of the tubs we have in stock, we will need to order

your tub from the factory. We are the exclusive dealer for Hydropool Hot Tubs. They have been in business for 36 years now, and as such, they are pretty popular. This means production times can range from 2-8 weeks depending on the current

market conditions worldwide. The good news is that you will get your tub exactly as you want it. Great things are worth the wait. If you order your hot tub now, it will be here and all ready for you before Autumn arrives.

4. Everyone can benefit from hydrotherapy: Let's face it, life can take its toll on our bodies. Back pain, aching legs, and sore shoulders are all symptoms of getting older. Maybe you play rugby or do cross-fit training. Whatever the case, our muscles ache at the end of the day. Hydrotherapy is medically proven to help alleviate all of these problems. Our hot tubs have specially designed programs that can address these and several other ailments that are affecting most adults.

5. \$500 FREE: Just tell me you read this article, and I will take another \$500 off!
